A classic team of Avengers returns with a new status quo!

Iron Man and War Machine have put together a new team of Avengers – one that includes villains seeking a path to redemption. Their case study? Ultron – who, against all odds, seems to be walking the straight and narrow...for now. But does the success of one guarantee the success of all? Spider-Woman and Firestar have their doubts. But Firestar has her own problems: Her time undercover with Orchis left scars and made her a pariah. Can the West Coast Avengers stop her downward spiral – or will their other questionable recruit, Blue Bolt, only exacerbate it? Plus: A second Ultron appears, declaring himself the leader of a terrifying new religion! And when the dark double of Steve Rogers

returns, can this ragtag team survive a showdown with an enemy who nearly conquered the entire world? Collecting WEST COAST AVENGERS (2024) #1-5.
